Section 1 – Introduction

This exercise helped me understand my trading performance and review my trades. I checked my good and bad decisions and learned from them. It helped me understand how I can improve my trading.

Section 2 – Good Trade Evaluation

I selected the trades where I made a profit and checked what I did correctly. I understood the importance of proper entry and exit. It also helped me understand how market analysis supports my decisions.

Section 3 – Poor Trade Evaluation

I reviewed the trades where I made mistakes and found the reasons for them. I understood that I should wait for proper confirmation before entering. This helped me learn how to avoid similar mistakes.

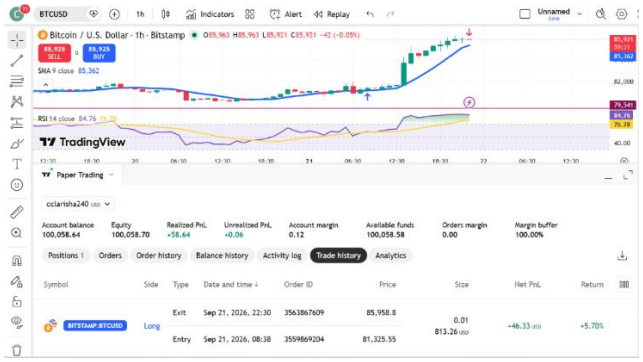

Section 4 – Focused Trading Report

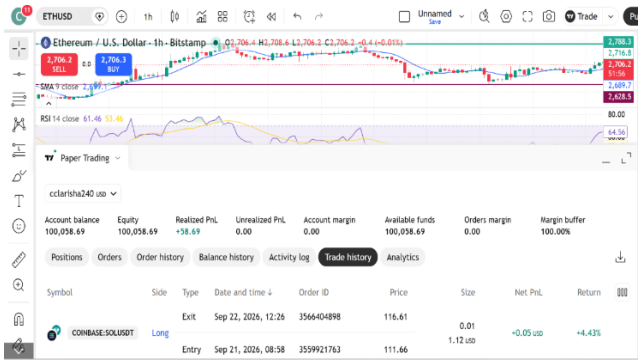

I applied the lessons from my previous trades in my focused trading. I paid more attention to the market trend, RSI and SMA before entering. This helped me make more careful trading decisions.

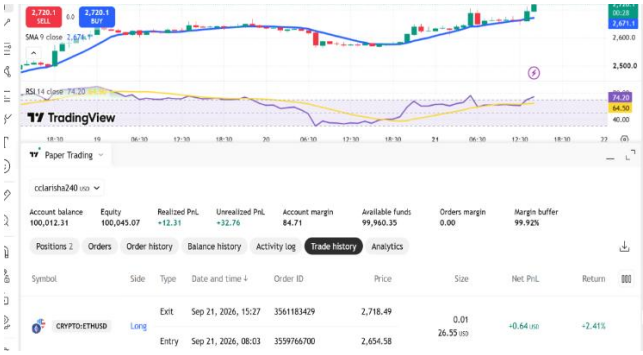

Section 5 – Overall Reflection

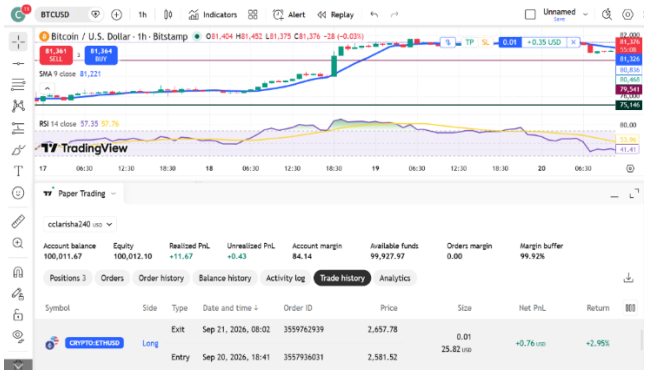

Overall, I learned from both my profitable and losing trades. I improved my trading discipline and understood my mistakes better. I still need to improve my patience and follow my trading plan.
